Surname Index for Volumes 61-87
Introduction

Most of the indexes bundled here were originally in digital format as indexed annually by the Colorado Genealogical Society. Every attempt has been made to obtain an accurate "reading" of the information. All of the original indexes used the spellings that appeared in the original quarterly publications, some of which may have contained spelling or typographical errors. A prudent searcher will try various spellings of the surnames being searched.

Unlike the indexes for Volumes 1-10 and 21-40, the index for volumes 61-87 has listed the surname at the beginning of each name.

Searching Hints

•This is a searchable pdf document and uses the same searching tools you would find in your pdf reader, such as *Adobe Acrobat Reader*.

•Begin by typing in a surname only.

•If there are too many "hits" from surname only, then type **surname, first name.**

•If the surname has a prefix such as "de," "le" or "van" try entering both with and without spaces between names. There are entries in either style.

•See the *Finding Aid : Page Numbers for Each Issue Number* to find which issue number has the page number you want.
